

About BGCA SMART Girls

The landscape of girlhood has changed dramatically in the past 25 years. The advent of social media alone has transformed the way young people interact with the world, and with their communities; it has become vitally important to their process of self-discovery and identification. Now, more than ever, young women need a solid foundation for building healthy attitudes and lifestyles.

The Boys & Girls Clubs of America's SMART Girls program helps girls build that foundation by equipping them with critical knowledge and skills in the areas of physical health and wellness; mental health and self-esteem; and relationships. Encompassing the physical, emotional, and social changes a girl will go through between the ages of eight and 18, this holistic approach accounts for her complete experience.

The annual SMART Ladies Golf Tournament was designed to directly support the programs of the Boys and Girls Club of Corvallis. As female leaders in our community, we can pull our resources and knowledge to give back for future generations of female leaders.

We hope you can join us!
